

SANITOL

HEAVY DUTY DETERGENT – SANITIZER

DESCRIPTION:

SANITOL is a free flowing powder detergent-sanitizer with a mild chlorine odor. It is formulated with stabilized chlorine bearing compound that provides 200 parts per million available chlorine at a use level of 30 grams per 4 liters of water. **SANITOL** is manufactured using a special technique that enabled to combine chlorine and surface active agents in one formulation.

A solution of detergent-sanitizers requires 200parts per million available chlorine if sanitizing claims are to be made. **SANITOL** meets this requirement at a use level 30 grams per 4 liters of water.

RECOMMENDED USES :

SANITOL is highly recommended for a combined cleaning and sanitizing of :

- | | |
