## **Machine Laundry Detergent**

### **DESCRIPTION:**

**SPIN** is a white, free flowing detergent powder specially formulated for heavy duty washing machine laundry application. It carefully selected ingredients that makes washing machine fast and efficient yet extremely safe for the fabric.

### **ADVANTAGES:**

**SPIN** contains a blend of powerful surfactants with high hardness tolerance, excellent soil removal and grease emulsification and low foam.

**SPIN** contains highly refined polyphosphates that sequester soil and mineral salts from water and chelates iron thus preventing redeposition of stains, discoloration or dulling films.

**SPIN** contains alkaline builders that scour out soils rapidly and reduce washing time.

**SPIN** is easy to use. It is very soluble in hot and cold water. Its balanced formulation enhances high cleaning efficiently and soil suspending property and reduces the amount of rinsing required.

**SPIN** is safe to use for natural and synthetic fibers. It is non-irritating to the skin.

**DOSAGE:** 1.0 kg **SPIN** per 100 kgs dry load.

**PACKAGING:** **SPIN** is packed in plastic bags with plastic liner of 25 kgs., (55 lbs) net.
