## **Heavy Duty One Shot Laundry Detergent**

### **DESCRIPTION:**

**SUPREME** is a Heavy Duty, One Shot Laundry Detergent containing alkali builders, sequestering agents, organic dispersants and carefully selected surfactants with excellent oil saponification and emulsification property.

**SUPREME** has a low lather formula which is ideal to use for all types of washing machines. Low lather means clothes move more freely and your washing machine cleans more efficiently. Low lather also makes rinsing easier and faster.

**SUPREME** removes dirt and stains which ordinary detergent may leave behind. It has anti-redeposition agents that keep the dirt that's been washed off away from clothes.

### **APPLICATION :**

The removal of oil stains in restaurant linens such as tablecloth and napkins is a pressing laundry problem. This problem is further complicated with the increasing use of synthetic fabrics where oil stains are more difficult to remove.

**SUPREME** Heavy Duty, one shot laundry detergent is formulated for this purpose. It contains a special blend of surfactants and alkali that effectively saponifies and emulsifies the oil. Thereafter, the organic dispersing agent in **SUPREME** prevents redeposition of the emulsified oil.

**DOSAGE :** Use 1.0 to 1.5 kgs. **SUPREME** per 100 kgs. of dry load. The concentration required depends on the degree and nature of oil stain present. A starting concentration of 1.0 kg. **SUPREME** per 100 kgs. of dry load is recommended. The concentration may be increased depending on the degree and nature of oil stain present. Recommended sudsing time is 10 to 15 minutes.

**PACKAGING :** **SUPREME** is packed in plastic bags with plastic liner of 25 kgs. net.
